ANNUAL REPORT OF PUBLIC HEALTH NURSING SERVICES

GREENWOOD — 1949

It is regrettable that the Public Health Nursing Service could not be resumed before August of this year. However, it is a pleasure to submit a report on the health activities which have taken place.

In June and July a nurse was loaned to the town in order that a series of Child Health Conferences might be conducted for the preschool children. These children were offered immunizations against diphtheria, whooping cough, tetanus and smallpox. They also received physical examinations by the conference physician. The third conference was held in August. The total attendance at Child Health Conferences during June, July and August was 31. Two children seen at these conferences were referred to Crippled Children's Services for diagnosis and treatment.

In September physical examinations were done in the 1st, 4th and 7th grades. Home follow-up visits have been made to those who were found to be in need of medical attention or in need of health supervision. The local Red Cross will pay for one throat operation this year.

The patch test was applied to all children in the Tubbs school at the request of the school physician. Follow-up visits were made to the positive reactors for the purpose of encouraging parents to have the children x-rayed.

Services for the mental hygiene and eye clinics have been offered to those who would benefit by such services.

It has been a pleasure to do Public Health Nursing in Greenwood and we are looking forward to even greater community participation in health work in the future.

I wish to thank the Child Health Conference committee and the school personnel for their fine cooperation.

Respectfully submitted,

VELMA SPENCER, R. N.

SUMMARY OF FOREST FIRE PREVENTION AND CONTROL LAWS PASSED IN 1949

Several requests have come to this department for a brief explanation in every day language of the new forest fire set-up between the state and towns.

It should be understood that the following are broad interpretations which in many instances will not apply to the borderline or special case. A copy of the laws may be obtained from the Forestry Department, State House, Augusta, or from your nearest state warden.

Forest Fire Prevention and Control in Organized Towns.

The purpose of the laws which became effective on August 6, 1949 was to place forest fire control under the Forestry Department for the entire state. It provides an unbroken chain of command from the town forest fire warden to the forest commissioner. A maximum amount of responsibility and authority remains with each local community but state authority is provided whenever the town system breaks down.

The organized town area has been divided into seven fire control districts with a state district warden in charge of each, employed on a year round basis. These men are responsible to the forest commissioner.

Each state district warden administers the fire protection organization and is responsible for the forest fire prevention-education program in his district. He prepares and revises annually a forest fire plan for his district.

The seven districts are subdivided into twenty-four sub-districts with a seasonal state forest fire warden in charge of each. These seasonal wardens are responsible to their state district forest fire wardens and assist him in carrying out the job of fire prevention and control.

Lookout towermen are directly responsible to the state wardens in charge of the district where the tower is located. They report fires in their range of vision and are responsible for the maintenance of their facilities.

The town forest fire warden is appointed by the forest commissioner with the approval of the local town officials for a three year term. He may be any citizen of the town and

is often the fire chief as well as town forest fire warden. He is responsible for taking immediate charge of control and extinguish forest fires within his town. "The management of town forest fires shall be the responsibility of the town forest fire warden until in the judgment of a state forest fire warden the situation makes it advisable for him to take over." Final authority and responsibility on forest fires shall be that of the state forest fire warden. This makes it necessary that the state warden be advised by the town forest fire warden of each fire in his town as soon as it is discovered. This is an important link in the chain of command from the town forest fire warden to the state warden. If the state warden at the scene of the fire is unable to handle the situation, he requests further aid from his immediate superior.

The Forestry Department shall be the coordinating agency whenever or wherever a major forest fire occurs or threatens.

Aid to Towns. Towns, cities, or plantations must pay the costs of controlling and extinguishing forest fires up to an amount equal to 2% of the town tax valuation. The state will reimburse the town for $\frac{1}{2}$ these costs. All forest fire suppression costs above this amount shall be paid by the state. Requests for $\frac{1}{2}$ state reimbursement must be presented to the forest commissioner within 60 days after total extinguishment of the fire or become void.

Slash and Brush Disposal. The responsibility for slash or brush disposal rests entirely on whoever "cuts, causes or permits to cut" forest growth. Such slash or brush must be moved back 50 feet from the shoulder or pavement of any public highway or road and 25 feet from utility right of ways. On complaint, if a real fire hazard exists, slash and brush must be removed 25 feet from forest growth of an adjoining land owner and 100 feet from dwellings.

All slash and brush shall be removed the required distance within 30 days after cutting, or 30 days after being notified to remove it. A violator of this section is liable to a fine of \$100 or 30 days imprisonment, or both. He is liable to the same fine and imprisonment every 30 days following his violation until the slash and brush is cleared back the required distance.

Another section of the same act requires that slash and brush resulting from the construction and maintenance of highways and utility right of ways shall be removed from these areas by burning or hauling away. Burning must comply with that section of the law covering burning permits which follows:

Burning Permits. It is unlawful for any person to kindle a fire for purposes of clearing land or burning logs or stumps, roots, brush, slash, fields of dry grass, pasture, and blueberry land except when the ground is covered with snow, without first obtaining a written permit. **Permits are issued by the town forest fire wardens.** A permit is necessary for any person to burn, even on his own land. A burning permit **does not** relieve the person of legal responsibility if the fire is allowed to escape or causes damage to property of another.

Board of Selectmen
Greenwood
Maine

Gentlemen:

In accordance with Chapter 16, Section 3 of the Revised Statutes of 1944, and at your request, the records of the Town of Greenwood have been audited by Auditors G. C. Lewis and V. A. Cunningham, Sr., for the period January 1, 1948 to December 31, 1948 inclusive.

The examination was made in accordance with generally accepted auditing standards applicable in the circumstances and included all procedures which were considered necessary. Insofar as could be ascertained within the scope of the examination, the financial transactions of the Town appear to have been appropriately handled.

Exhibits and Schedules incorporated in this report present the result of the financial operations of the Town for the period designated. Comments are also included which may prove of interest to you.

All of which is respectfully submitted,

Very truly yours,

FRED M. BERRY

State Auditor

COMMENTS

Re: Audit of Accounts—Town of Greenwood

January 1, 1949 to December 31, 1948

An audit of the records and accounts of the Town of Greenwood has been completed for the year ended December 31, 1948.

CASH

The cash balance as of December 31, 1948, as reconciled with the statement of the National Bank of Commerce of Portland, Maine, was \$6,715.41. This amount agreed with the record of the Selectmen and Treasurer. Cash receipts as recorded by the Treasurer, were traced to deposits in the bank and appeared to be in proper order.

Disbursements were made by check from Selectmens' warrants which were properly authorized.

ACCOUNTS RECEIVABLE

This account amounting to \$155.25, represents reimbursable expenditures made prior to December 31, 1948 which had not been received when the books were closed and an amount due from the Trust Funds. This amount is supported in detail on Schedule A-1.

TAXES RECEIVABLE

The taxes receivable as reflected by the Collector's records as of December 31, 1948 amounted to \$1,831.20. Of this amount \$1,809.24 is represented by the current year and \$21.96 by prior years. A statement showing the transactions occurring in this account for the year is shown on Schedule A-2.

TAX LIENS

Tax Liens in the amount of \$563.26, as shown on the Balance Sheet, were on file with the Town Treasurer. An examination of the liens indicated that each was properly recorded at the Register of Deeds. A detail of the tax liens is shown on Schedule A-12.

INVESTMENTS

Investments amounting to \$1,000.00 were examined. The securities were in the possession of the Treasurer and are listed on Schedule A-4.

CAPITAL RESERVE FUND INVESTMENTS

This account was increased during the year by \$53.35 representing deposits made from the General Fund of \$40.25 and interest on the saving account of \$13.10. There is \$12.50 due this account from the General Fund at December 31, 1948 which should be deposited upon receipt.

NOTES PAYABLE

A reduction of \$1,000.00 in this account was made by appropriation during the year. There remains to be paid \$6,000.00 as shown on Schedule A-6.

CAPITAL RESERVE FUND

This account was increased by \$25.60 which represented earnings from investments as follows: securities \$12.50 (not deposited) and bank interest \$13.10.

RESERVE FOR CARRYING BALANCES

Departmental accounts financed by direct appropriation or other revenue, which are required by law or for some other reason to be carried forward to the 1949 year, constitute this account.

UNAPPROPRIATED SURPLUS

An increase of \$2,397.17 occurred in the unappropriated surplus during the year. The items contributing to this increase are shown in detail on Exhibit E.

TRUST FUNDS

The several trust funds in the custody of the town were examined. It was noted that \$9.12 was expended by the town in conjunction with these funds which was not, as of December 31, 1948 withdrawn from the income account in the bank. This should be done as soon as possible to reimburse the town for the amount expended. The investments of the funds appeared to be in order.

1948 TAX ASSESSMENT, COMMITMENT AND COLLECTION

On Exhibit C is presented a statement of the current year's assessment, commitment and collections. Examination of the records indicated that the commitment was in agreement with the Assessors' records and the warrant to the Collector. Supplemental taxes and abatements were examined and appeared to be in order. The computation of the assessment produced an overlay of \$1,094.86 which is within the 5% statutory limitation.

GENERAL

The fidelity bonds of the Collector and Treasurer were examined and appeared to be in order.

Excise taxes collected were checked and compared with deposits to the Town Treasurer.

Warrants, vouchers, pay rolls and cancelled checks were checked to the extent deemed necessary and those checked appeared to be just charges and properly recorded.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Citizens of Greenwood.

I'm pleased to make my fourth annual report on the progress of the Greenwood schools.

The Tubbs and Greenwood City Schools still have small enrollments, there being twelve registered in each school. The enrollment at Locke Mills has increased this year. The beginning class has nineteen pupils.

The year started with four of last year's teachers on the payroll. Mrs. Olive Lurvey, who served you so faithfully and so well as Principal at the Locke Mills school for several years, accepted a position in Bethel. Mrs. Frances Gunther was made Principal. Miss Leonora Toomey, who started the year in the upper grade room, left after a few weeks and was followed by Mr. Gail Webber. Due to illness in her family Mrs. Elizabeth Wight, who has done such fine work with the primary grades, found it necessary to get through at Christmas vacation. Mrs. Miriam McAllister of Bryant Pond, who formerly taught the primary grades, was secured to finish out the year.

The Tubbs school was completely painted this past year, and the interior of the Greenwood City school was also painted. This was the only major repair for the year. Your committee feels that the outside of the Greenwood City building should be painted this year, and the Locke Mills building in 1951.

Your school committee each year makes recommendations as to the amount it anticipates will be needed to carry on the school program. Two years ago it was necessary to ask for \$12,300 for School Maintenance, plus amounts for repairs, etc. Last year the estimated amount needed was only \$10,300. Under ordinary circumstances this would have been enough, but the failure of the State to entirely meet its subsidy obligations plus an unexpected increase in high school tuition

necessitated using a large portion of the balance. Mainly due to these factors and to a large increase in numbers of high school tuition pupils much more money must be appropriated for school maintenance this year. Directly following you will find the recommendations of the school committee.

May I express appreciation for your cooperation this past year.

Respectfully submitted,

DONALD M. CHRISTIE

Superintendent of Schools
